Schedule Extension Request for Operable Unit No 6 Granted

Ned Hutchins, Acting Associate General Manager  
 Environmental Restoration Management  
 EG&G Rocky Flats, Inc

The Environmental Protection Agency (EPA), as lead regulatory agency for Operable Unit (OU) 6, has reviewed our July 21, 1993, extension schedule request for the submittal of the Draft and Final Resource Conservation and Recovery Act (RCRA) Facility Investigation/Remedial Investigation (RFI/RI) Reports for OU6

The EPA, after consultation with the Colorado Department of Health (CDH), has concluded that good cause exists for an extension of ten months to the schedule. Therefore, the EPA has granted a ten month extension for the submittal of the Draft and Final RFI/RI Reports for OU6. The new milestone delivery dates for submittal of the Draft and Final RFI/RI Reports for OU6 are June 10, 1994, and November 18, 1994, respectively.

Please ensure that your working schedule for delivery of these reports is revised to provide for delivery of these documents to DOE/RFO with adequate time for RFO to review these documents and be able to deliver these documents on the approved due dates.

Contact Norma I. Castaneda at extension 4226 if you should have any questions concerning OU 6.
